Dear Valued Patient

RE: Re-Opening of Dental Practices

In accordance with the announcement from Premier Horgan regarding the re-opening of Dental Offices, the College of Dental Surgeons of British Columbia have outlined new standards that will be implemented in our dental practice. Beginning May 25, 2020 we will be re-opening for routine dental care. New infection control measures have been added to our office to ensure the safety of our patients and our staff. This includes plexi-glass at our reception area, limited seating in our waiting room and spaced out appointment times to limit the number of patients in our practice at one time. Please help us by coming alone to your appointment if possible and for our younger patients please bring only one adult with you. These measures, in addition to others, will help us comply with the new standards and ensure everyone's safety. Upon arrival, please expect to answer a COVID-19 screening form, we MUST ensure everyone coming into our office is healthy. If you are unwell, please stay home.

We ask you to be patient with us in the coming weeks as we establish our new 'normal'. We will continue to work towards getting you in for your regular cleaning and check-up appointments but this will take time.

If you had an appointment canceled over the past 2 months due to the pandemic we will call you to rebook your appointment.

During the coming weeks, if you have any dental concerns please do not hesitate to contact our office. As always your dental health is our top priority.

Stay Safe,

Dr. Richard Wilczek
